

Czech Republic, 18th December 2018

To whom it may concern

I would like to inform you about my experience with the company Extreme Care Ltd. that ensured the transportation of the coffin from Bulgaria to the Czech Republic and helped us to get the belongings and the autopsy report from the Bulgarian state authorities which was not easy at all and lasted a few months. The communication with the representatives of this company went smooth and they reacted on my requests very promptly, sometimes I had a feeling they work 24 hours a day. They helped us in all issues concerning the death of my sister and this way I would like to thank the representatives of Extreme Care Ltd. for their help and assistance.

I can recommend them as a good partner if the death comes to your families and you have to deal with the issues how to get the remains of your beloved relatives back to you, your countries.

Best regards

Linda Kubatova
