

Sofia, 19 July, 2016

To whom it may concern,

The company Extreme Care Ltd. was appointed directly by the Embassy of the Kingdom of Morocco in Sofia to perform the necessary procedures for the repatriation of the body of a Moroccan national, who had passed away in Varna.

Extreme Care Ltd. was able to repatriate the mortal remains of the deceased person in a timely, respectful and professional manner, maintaining constant contact with the Embassy, following the religious requirements for handling the body of the deceased and providing with assistance regarding a difficult and complicated procedure for releasing the body from the hospital in Varna. All requirements for transferring a coffin to Morocco were strictly followed by the company.

Given the excellent service the Embassy received in this complicated case and the professionalism of the representatives of Extreme Care Ltd. I am openly recommending the company as a reliable and trustworthy partner ✓

Regards,
