

To whom it may concern,

I am writing to thank Mr. Petar Chernaev and recommend working with his company Extreme Care, when needed.

Mr. Chernaev help us in handling and very well managing our complex case of my husband who died suddenly in Varna after being taken to the hospital.

We were advised to hire Mr. Chernaev by the counselor Mr. Yehuda Golan.

We have contacted Mr. Chernaev to take for the body transfer from Varna to Sofia and from Sofia to Israel. He immediately started working on the required documents.

Since my husband left a Will with extraordinary requests, the treatment of bringing his body to Israel during this period of COVID disease caused many challenging issues to be resolved.

Mr. Chernaev accompanied us to the hospital and helped us with the communication and translation from the Bulgarian language into English.

He helped us to fill out the forms, identify the body and prepare it for the flight to Israel. He updated on any progress on this subject.

My son and myself deeply appreciate his support, accompaniment, professional and prompt care, as well as the patience and long explanations he gave us during the whole process on such difficult days.

On behalf of my children and myself, we would like to thank Mr. Chernaev for the immediate response in bringing back my husband to his final destination in Israel.

With Kind regards,

Olivia Mishall
